Descripción proporcionada por fabricante

The hard top, a whim, an "accessory" seen by today's clientele as synonymous with a trend, and which even CRANCHI hasn't been able to resist. The H.T. line entices because it creates differences, provokes new emotions and offers the "hard top types" (those who love to sail whatever the weather) an even more slender and elegant boat. The introduction of the H.T. structure, apart from bringing undoubted practical advantages, doesn't weigh down the line of the boat at all - on the contrary, it is perfectly proportioned. The upper part of the roof is movable, with a sliding system, and with an electric opening system, while the cabin is cooled by an air conditioning system. Those who chose a Hard Top boat always know what they want: the freedom to just the sky limiting the space above their heads, the impression of being at one with nature, the indescribable pleasure of the breeze caressing their faces...
